STANDARD TOILET TANK COMPONENTS

Adjustable Flapper

Conventional flappers deteriorate over time as a result of chemicals in the water, and need to be checked at least every year to make sure they're fitting tightly over the flush tube. A leak caused by a faulty flapper wastes a lot of water and can seriously increase your water bill.

- Save up to 2.5 gallons per flush
- Fits 1.6, 3.5, 5 and 7 gallon toilets
- Stops existing leaks and prevents new leaks for 5 years
- Virgin PVC material
- Stainless Steel ball chain, clasp and hook
- Installs by hand in seconds; no tools required
- Chlorine and Chloramine resistant
- Adjustable end cap for maximum flushing power
- 5-year warranty
- Made in the USA
